Apartment Hunt

18th December 2020

OVERVIEW

Redesign Apartment Hunt's current website utilizing modern technologies.

GOALS

1. Allow users to search for an apartment and filter by certain parameters.
2. Allow agents to answer user questions
3. Allow for secure document uploads
4. Allow for agents to add listings
5. Allow agents to upload virtual tour of apartments

Features

Apartment Search

As a user, I want to be able to filter through apartments based on price, location, square footage, and beds/bath.

As a user, I want to be able to see details about the neighborhood, public transportation, art, crime, schools, and dining when I select an apartment.

As a user, I want to be able to click an apartment from search results and view additional details.

Property Submission

As an agent, I want to be able to list new apartments on Apartment Hunt's website for users to view.

Video Tour

As a user, I want to be able to experience a virtual tour of the apartment online so I can visualize the apartment from home.

As an admin, I want to be able to upload virtual tours to improve the user viewing experience.

User Authentication

As a user and Admin, when I go to Apartment Hunt's website, I should see a login page with several options to login and signup.

As a user, when logged in, I should only be allowed to access my private profile and public routes

As an Admin, I should be allowed to access the Admin dashboard

Agent Chat Box

As a user, I want to be able to communicate with an agent representing a given property.

As a user, I want to have all inquiries and message histories in one place.

As an agent, I want to be able to respond to client inquiries.

As an agent, I want to have all my client communication in one place.

Secure Document Upload

As a user, I want to be able to securely upload documents to streamline the application process.

As a user, I want to be able to securely view documents I have uploaded to confirm proper docs.

As a user, I want to be able to securely delete documents I have uploaded if no longer necessary.

As an admin, I want to be able to securely view documents posted by my client to provide client feedback on whether they will get accepted or denied.
